GUIDELINES

Community Deputations are now open format, allowing community members to raise their concerns, share requests, and ask questions.

While it is not mandatory, we encourage you to forward information about your concern or request prior to the meeting. This will help us better understand the issue, prepare relevant information, and provide more informed responses and support.

Please be aware that issues raised during deputations will be tracked and followed up on by Administration as appropriate. Addressing these matters may take time, depending on the nature and complexity of the issue and our available resources. We appreciate your patience and understanding as we work through requests within the limits of our capacity.

If you are forwarding your concern or request, please send to:
